LANGUAGES

English - Upper intermediate (B2)

INTERESTS OR HOBBIES

I have participated in hackathons organized by DTIT, where I collaborated with fellow developers and innovators to create innovative solutions within a limited time frame.

Work experience

FEB 2024 - JUNE 2025

Application developer
Deutsche Telekom IT & Telecommunications Slovakia s.r.o., Košice, Slovak Republic
- **Codergames (Angular):** Front-end role in the development of the Codergames website in 2023. Designed and implemented key components. Enhanced the user experience by ensuring seamless website translations across multiple languages. Additionally, collaborated on optimizing the website's performance, improving code modularity to ensure a high-quality product.
- **TechRadar (React):** Contributed significantly to the creation and evolution of multiple internal TechRadar platforms, including Tech Radar, Innovation Radar, and DTT Radar. Worked on developing advanced filtration features and tailoring the default radar to address specific DTT requirements. Beyond these, ensured accessibility compliance, refactored code for scalability, and enhanced visual design consistency across the platforms. Played an active role in cross-functional team discussions, shaping the direction of new features based on user feedback and business needs.

Education

SEP 2022 - JUNE 2025

Košická Akadémia Softvérového vývoja
Computer Systems
Košice, Slovak Republic
During my studies, I gained experience in various areas of technology and software development. I completed several projects that improved my skills in different programming languages and frameworks. Some of the key projects I worked on include:

- **Angular:** Developed an Angular portfolio and contributed to the creation of the Codergames website.
- **Git, Scrum**
- **Android:** Created a Pexeso app for Android devices.
- **HTML, CSS, JavaScript:** Worked on multiple web development projects using these core technologies.
- **SQL:** Designed and managed databases for various applications.
- **Arduino, ESP:** Built and programmed microcontroller projects.
- **Selenium:** Automated testing for web applications using Selenium.
- **Linux:** Basic use of common Linux distributions.

Additionally, every year I have been actively involved in promoting KASV at my previous school, effectively improving my softskills.

SEP 2018 - MAR 2022	**Stredná odborná škola technická Kukučínova Poprad** Mechanics of Computer Networks Poprad, Slovak Republic Main projects:

- **Active Cooling System for CPU:** Development and implementation.
- **Management of Nginx Web Server:** Configuration and maintenance.

Course or certificate

2009 - 2025	**Traditional Japanese Ju-Jitsu - 1. Kyu** Ing. Shihan Jozef Lenčéš Since 2021, I have been an assistant to a trainer, and I have managed training sessions for others.

SEP 2018 - MAY 2022	**Odborná spôsobilosť na vykonávanie činnosti na technických zariadeniach elektrických §21** Stredná odborná škola technická Kukučínova Poprad
	CISCO CCNAv7 Cisco Networking Academy CCNA 2
